## Experience

Strategy Planner for UX & AI Technologies

Apr 2025 - Now

**The Center for Government and Civic Service** | Austin, TX

- Piloting the Public Service Software Factory, integrating AI-enhanced development practices into an internship scrum model to reinvent how non-technical teams build and deploy public service AI applications.
- Leading the end-to-end launch of an internal software tool for "Child Protective Services" that will impact the ~5K workers who are in charge of the intake/screening process by accelerating their tasks by 70%.
- Drove cross-functional initiatives including a 170-participant hackathon in partnership with NASA Space Apps, securing \$30K+ in sponsorships.

UX Designer & Business Development Specialist

Jul 2024-Feb 2025

**ACC Bioscience Incubator** | Austin, TX

- Led UX research and redesign of the incubator website, resolving 7+ usability issues and reducing key task completion time by 60%.
- Facilitated design thinking workshops to identify business and user-journey gaps.
- Produced the incubator's first annual report with 3+ KPIs and ratios to measure future impact.

Coordinator of the Food Access Program

Mar 2025 - Jun 2025

**ACC Social Support Resource Development** | Austin, TX

- Conducted guerrilla UX research to identify navigation and access barriers across food-access.
- Synthesized findings into a technical redesign proposal for future college-wide implementation.
- Supported service delivery for 250+ households through cross-functional coordination.

## Projects Experience

UX / Product Designer

Dec 2025 - Present

**Redivo.app** | Austin, TX

- Owned end-to-end product execution from problem definition to MVP in 30 days, applying behavioral UX research and intentional friction to reduce late-night scrolling.
- Designed and shipped a production-ready voice interaction experience informed by netnographic research, shaping conversational UX patterns and user engagement.

## Skills
